

# Fire & Arson Investigations

A crucial role in the recovery of your building post-fire

“

With over 20 years of industry experience, Fahrenheit Global's vision is to make the world a safer place which is driven by our philosophy to do the right thing.

”

## Fire & Arson Investigations

### The Fahrenheit Global Difference

Here at Fahrenheit Global we have a vision to make the world a safer place. The company began providing fire engineering services to safeguard properties and their occupants back in 2002. Since then our motto to always "do the right thing" has held strong in all the works carried out by the Fahrenheit Global team.

With over 20 years of industry experience, our team of registered Fire Engineers and private Fire Investigators ensure delivery of our work with minimum fuss each time. Our goal is to provide our clients with suitable access consultancy services, upgrades, checks and investigation services as they require them with our philosophy "to do the right thing" at the core of our business. Having worked on a range of significant projects across the globe, our experience, expertise, proactive attitude as well as attention to detail allows us to provide a first-class spectrum of fire engineering services.

We endeavor to always uphold our core values which focus on accountability, growth, innovation, delivering high-quality work and putting our client's needs first. These are the values that make Fahrenheit Global the business it is today.

### Fire Investigation Services play a crucial role in the recovery of your building post-fire

Following a fire-related incident our team of Fire Forensic Experts can be on the scene immediately. Their job is to provide clients with answers to the cause of the fire, and to determine and uncover details where there is a suspicion of arson.

Fire Investigation Services play a crucial role in the recovery of your building post-fire. The scene must be thoroughly assessed by a team before any form of clean up or recovery can be made. By enlisting the services of Fahrenheit Global you can be assured that you have the support of a highly skilled Arson Investigation team who can carry out a range of Forensic Fire Investigation Services quickly.

The team will file reports to the relevant parties and investigate a hypothesis based upon the evidence uncovered at the scene. The team will manage communications between all relevant parties and manage the process until an outcome has been achieved.

If you require the services of our Forensic Fire Investigators, please contact us.
